

Unlock the evidence

Every matter has a unique fact pattern and deserves an adaptable approach. We can help you navigate the process of data identification, collection, analysis, and reporting to uncover the truth – no matter where the data lives.

Digital data collection

From targeted collections to full forensic imaging and analysis, our procedures are documented, defensible, and available across the country. We can collect remotely or on-site depending upon the needs of the case.

We offer each of the following:

- On-site or remote data collection
- Encrypted hard drives
- Chain of custody and documented acquisition workflow
- Cloud-based, collaboration app, and social media collections
- PC and mobile device collections

We can remotely collect data from mobile devices in the morning and have the data in your hands that same afternoon.

Litigator-led eDiscovery

Our co-founders are former AmLaw 100 litigators. Clients across the country trust us because we provide sophisticated solutions, candid communications, and simple, transparent pricing.

Our goal? To make eDiscovery approachable and straightforward. With our comprehensive solutions and defensible practices, we'll empower you to make informed decisions and achieve the best possible outcomes.

Your core competency is focusing on case merits and strategy; ours is eDiscovery. Together we can do great work.
