

eDiscovery Hosting and Services

Sophisticated services. Simply delivered.

Proteus provides industry-leading software, straightforward pricing, and an accomplished team of attorneys and technologists to support your matters. Our unique blend of experience and credibility is why over 90% of our revenue is generated from client referrals.

Technology partnerships

We recommend the appropriate software and workflows for your matter based upon factors including case budget, production deadlines, data types, and more. We are not married to any individual software provider, nor will we attempt to force you into pre-canned workflows.

We can provide point solutions for any of the below areas, or end-to-end support during a matter.

- **Onboarding:** discussions including an overview of the matter, your discovery priorities, deadlines, protocols, and more.
- **Data collections:** forensically-sound collection of Electronically Stored Information (ESI) from mobile devices, computers, collaboration apps, and more.
- **ESI ingestion and processing:** using a secure data transfer, analytics, and ECA (where applicable).
- **Managed document review:** responsiveness and issue coding, privilege logging and redactions.
- **eDiscovery productions:** rolling or single and pursuant to ESI protocol (where applicable).
- **Matter close-out:** return, delete, and/or archive per your direction.
- **Defensibility binder:** includes documentation of workflows and a decision log.

Litigator-led eDiscovery

Our co-founders are former AmLaw 100 litigators. Clients across the country trust us because we provide candid communications and sophisticated solutions with simple, transparent pricing.

Our goal? To make eDiscovery approachable and straightforward. With our comprehensive solutions and defensible practices, we'll empower you to make informed decisions and achieve the best possible outcomes.

Your core competency is focusing on case merits and strategy; ours is eDiscovery. Together we can do great work.

“To work with a team that speaks the same language and has an acute understanding of litigation strategy is immensely valuable. In fact, it’s indispensable.”
