## Defensible, affordable results

Navigating eDiscovery complexities can be challenging, but Proteus Discovery Group is here to help. Founded by practicing litigators, we provide tailored eDiscovery strategies for law firms and corporate legal departments, ensuring defensible and affordable results. Our reliable, responsive approach, combined with transparent pricing, allows you to focus on achieving the best outcomes for your clients. Trust Proteus to deliver sophisticated solutions and clear communication as we tackle the intricacies of eDiscovery together.

## eDiscovery Hosting

Proteus offers comprehensive eDiscovery Services tailored to suit your your unique needs. With a technology-agnostic approach and partnerships with leading platforms like RelativityOne and Everlaw, we recommend the best tools and workflows based on your specific case requirements, budget, and deadlines. Our Project Management team, including 3 Relativity Masters, enhances the eDiscovery process with precision and efficiency. Whether your data is in the cloud or on-premises, our team will help you organize, analyze, and produce documents during litigation, investigations, and regulatory actions.

## Digital Forensics

In today's digital landscape, critical litigation information is often stored electronically, and our adaptable approach ensures reliable and defensible evidence collection, whether remotely or on-site, and our experienced team navigates the complexities of digital forensics to uncover the unique facts of each case, providing you with the insights needed to build your case effectively.

**With dedicated support, we're committed to guiding you through each phase of data analysis, helping you focus on what matters most.**

## Managed Document Review

Our Document Review Services provide law firms and corporate legal teams with a cost-effective and scalable solution. Our reviewers are US-based, licensed attorneys in good standing. We do not outsource staffing or offshore review. Leveraging advanced technology and tailored workflows that align with your deadlines and budget, we ensure you access critical information quickly. With our experienced project management team, we streamline the process and offer proactive support, allowing you to focus on building your case, even in complex situations that don't fit conventional workflows.

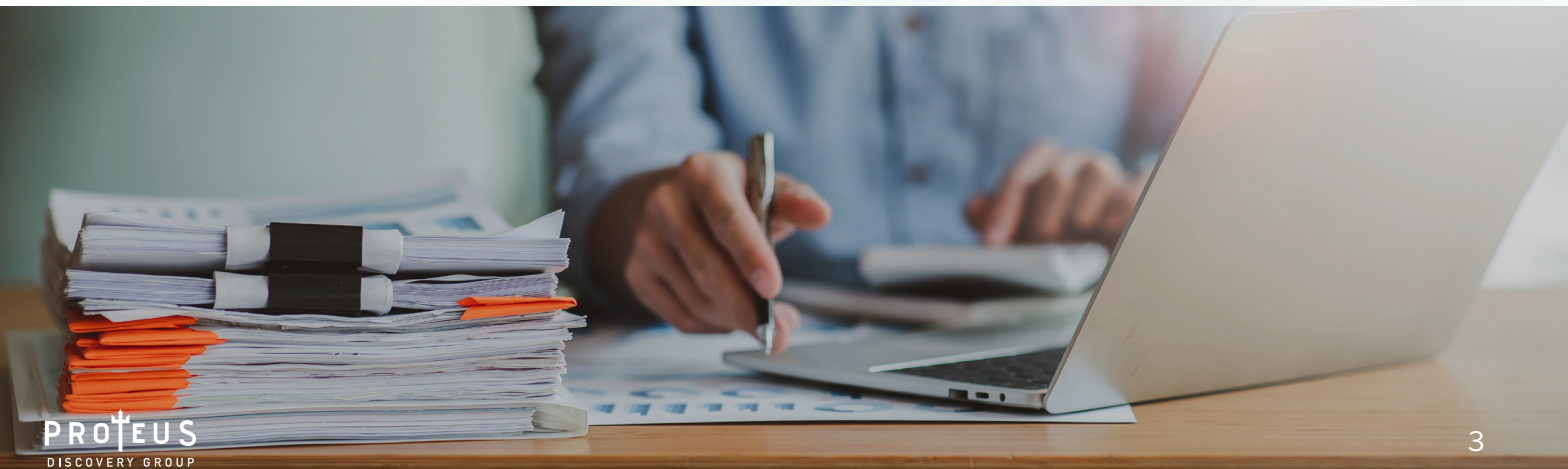

## Scanning Services

Paper documents can slow down modern litigation workflows, but Proteus helps you move forward. Our scanning and digitization services turn physical files into searchable, well-organized digital records, with capabilities that scale from exhibit printing to full backfile conversions. No matter the industry, we deliver high-volume scanning, custom database creation, and precise document indexing. When needed, we load output into your preferred eDiscovery platform and design defensible workflows that support your case. In greater Portland, we offer bulk scanning and on-demand exhibit printing.

## Consulting

Our Consulting Services help you develop a strategy to reduce costs, avoid discovery disputes, and focus on case strategy. Led by experienced litigators, we guide you through litigation, investigations, and regulatory matters, ensuring defensibility while managing budgets and deadlines. Our services, including information governance, discovery motion drafting, custodian surveys, meet-and-confer support, and eDiscovery counsel, are tailored to meet your specific needs and preserve your budget for merits, not discovery.

**Our transparent pricing and accomplished team of attorneys and technologists can guide you through each phase of data analysis to eliminate the distractions and find the documents and data that matter.**

## About Proteus

Our co-founders are former AmLaw 100 litigators. Clients across the country trust us because we provide candid communications and sophisticated solutions with simple, transparent pricing.

Our goal? To make eDiscovery approachable and straightforward. With our comprehensive solutions and defensible practices, we'll empower you to make informed decisions and achieve the best possible outcomes.

Your core competency is focusing on case merits and strategy; ours is eDiscovery. Together we can do great work.
