

THE LEGAL PAPER PROBLEM: AND THE LAST BOX YOU'LL EVER LIFT

Why digitizing your legal records isn't just a convenience – it's a case-winning strategy. 100% onshore. 100% defensible.

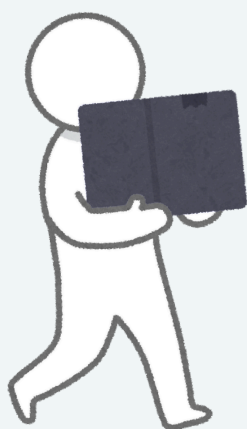

70%

The Real Burden of Paper

- 70% of legal professionals still rely on physical records for litigation prep.
- Physical files require manual sorting, copying, and storage.
- Trial deadlines don't wait for a trip to the storage room.

THE OLD WAY:

Physical Boxes >
Sorting by Hand >
Manual Photocopy and Scan >
Restack Physical Boxes >
Search and Sort by Hand

THE PROTEUS WAY:

Scan > Code > Search

From box to button: A digital transformation using a workflow *that works*.

The Proteus Advantage

Rapid Turnaround – Tight trial window? We're built for that.

100% Onshore – No outsourcing. No uncertainty.

Searchable Output – Find your files by keyword, not by hand.

Built for Litigation – We're founded by litigators, for litigators.

90% Faster File Retrieval. No Joke.

One public school district partnered with Proteus to digitize decades of legal records. The result?

- Over 100,000 pages scanned
- Keyword search instead of warehouse digging
- 90% reduction in file retrieval time

90%

How Digitization Works

- Box Pickup or Drop-off - Send us your case files or records, no need to prep or organize.
- High-Speed Scanning - We scan every page using litigation-grade equipment.
- Coding & Unitization - Documents are logically broken out (by document type, date, or author) and tagged with key metadata.
- OCR & Searchable Output - Files are processed with Optical Character Recognition (OCR), making them fully keyword searchable.
- Delivery in Review-Ready Format - We return your data in the format you need, load files for Relativity, Everlaw, or simple PDFs.
